

HACKERGAL'S FUTURE-READY COMPETENCIES

Hackergal's Hackathon Program is designed to encourage students to achieve their full potential through **Hackergal's 6 Future-Ready Competencies**. We know that learning to code and making a difference through technology goes beyond programming knowledge and skills. That's why our core competencies equip girls with the ability to meet the complex demands of diverse contexts and be successful in their everyday lives and in their futures.

COMPETENCY

STUDENT "I CAN" STATEMENTS

	<ul style="list-style-type: none"> I can analyse, test, and evaluate facts by using strategies to make connections between different ideas and information. I can solve problems and make decisions with logic and reason, thinking both independently and collaboratively.
	<ul style="list-style-type: none"> I can develop innovative ideas using my imagination to see the world in new ways. I can create and pursue unique solutions when presented with a challenge.
	<ul style="list-style-type: none"> I can approach new learning with curiosity and confidence perceiving mistakes as part of personal growth. I can show flexibility and adaptability to change, demonstrating resilience when experiencing uncertainty and/or failure. I can take pride in the effort required to learn something new and reflect on personal progress with self-awareness.
	<ul style="list-style-type: none"> I can show initiative and contribute equitably, showing an understanding of expectations and roles within a group. I can demonstrate an open-mind to different ideas with a focus on learning together to gain a better understanding. I can develop positive peer relationships to help achieve shared goals.
	<ul style="list-style-type: none"> I can express ideas using appropriate tone, vocabulary, and body language so others can understand and engage. I can listen actively, considering and appreciating diverse perspectives. I can apply logic and reason when communicating with others to reach a mutual understanding.
	<ul style="list-style-type: none"> I can understand that humans are interconnected and demonstrate empathy towards others. I can take action and make positive contributions as an active member of one's community, society and the world. I can explore how technology can be used responsibly as a tool to create sustainable and equitable impact.
